
CONTENTS OF VOLUME 33

NUMBER 1**PHYSICS OF INSTRUMENT MAKING**

- Implementation of an acousto-electric converter.
 2. Electrokinetic characteristics of microfiltration membranes
L. E. Ermakova, B. P. Sharfarets, S. P. Dmitriev, V. E. Kurochkin 3
- Non-separation analyzer of volume fractions of gas, condensate
 and water in products extracted from gas condensate wells
I. N. Moskalev, A. V. Semenov, S. N. Ekimchev, D. A. Khapov 17
- Study of the activity of thermocatalytic hydrogen sensors
 at negative ambient temperatures
V. A. Talipov, A. M. Baranov, I. I. Ivanov, Ju. Yangyang 30
- Investigation of optical surfaces of plane-convex lenses by an experimental
 interference setup with a diffracted reference wavefront
*E. E. Maiorov, Y. M. Borodyansky, R. B. Guliyev,
 A. V. Dagaev, V. V. Kurlov, I. S. Tayurskaya* 43

SYSTEM ANALYSIS OF MEASURING DEVICES AND METHODS

- A new method and technical means for detecting hydrocarbon leaks
V. S. Kondratenko, A. Yu. Rogov, A. V. Sorokin, A. I. Tsvetkov 54
- Direct exposure system based on a liquid crystal display
*M. A. Korobkov, V. D. Zajkin, E. S. Mareichev,
 O. V. Khomutskaya, F. V. Vasiliev* 65

**MATHEMATICAL METHODS AND MODELLING
 IN INSTRUMENT MAKING**

- Analysis of multidimensional data on the composition of gases emitted
 from faults in the earth's surface
L. V. Novikov, A. G. Kuzmin, Yu. A. Titov 86
- Synthesized data creation software and feedback simulator for testing
 machine learning algorithms
A. G. Lapushkin, D. A. Gavrilov, O. A. Potkin 95

NUMBER 2**SYSTEM ANALYSIS OF MEASURING DEVICES AND METHODS**

- Investigation of mass-spectrometric systems using silicone membranes and capillary
 for direct inlet of gas samples
Yu. A. Titov, A. G. Kuzmin, N. A. Esikova 3
- Study of the influence of flameless catalytic combustion of hydrogen on platinum group
 catalysts on parameters of thermal catalytic sensors
I. I. Ivanov, A. M. Baranov 12

**MATHEMATICAL METHODS AND MODELLING
 IN INSTRUMENT MAKING**

- The principal component analysis as a method for determining the hydrogen
 concentration in multicomponent mixtures
T. V. Osipova, A. M. Baranov, I. I. Ivanov 24
- Machine learning algorithm for the construction of a nucleotide sequence
 in the Nanofor SPS sequencer using the principal component analysis
*V. V. Manoilov, A. G. Borodinov, A. I. Petrov,
 I. V. Zarutsky, V. E. Kurochkin* 35

Estimation of the probability of erroneous interpretation of the results of PCR analysis. Part 1. Failures of technical devices <i>A. L. Bulyanitsa</i>	49
On the use of hyperchaotic signals for data transmission in radio communication systems <i>A. A. Gavrishev</i>	62

DEVELOPMENT OF MEASURING DEVICES AND SYSTEMS

Implementation of the speckle photography method for the control of diffusely reflecting surfaces of objects <i>E. E. Maiorov, G. A. Kostin, T. A. Chernyak</i>	75
Circuitry of microcontroller programming nodes for use in space experiments <i>D. V. Lisin</i>	84

NUMBER 3

DEVELOPMENT OF MEASURING DEVICES AND SYSTEMS

Development of a DIY platform for droplet-based microfluidics <i>M. A. Poldushov</i>	3
The simplest set of droplet-free electro spraying equipment for the deposition of metal oxide nanoparticles on a MALDI target under normal conditions <i>S. K. Ilyushonok, A. S. Gladchuk, A. N. Arseniev, N. V. Tomilin, M. N. Krasnov, E. P. Podolskaya, N. V. Krasnov</i>	27
Development of a prototype of a multifunctional optical-electronic all-round viewing system to provide visual orientation of unmanned vehicles <i>D. A. Gavrilov, E. A. Tatarinova, A. A. Fortunatov, V. E. Buzdin, D. V. Uchaev, Dm. V. Uchaev, I. M. Mikhailov, M. V. Terentiev, D. N. Shchelkunov, Ya. Murhizh, O. A. Potkin</i>	37

SYSTEM ANALYSIS OF MEASURING DEVICES AND METHODS

Improvement of NMR techniques to increase accuracy of the measurements of self-diffusion and fluid motion <i>V. L. Odivanov, Ya. V. Fattakhov</i>	49
Measurement of the components of the complex resistance of mutual induction <i>B. M. Mamikonyan, S. A. Kazaryan</i>	60

MATHEMATICAL METHODS AND MODELLING IN INSTRUMENT MAKING

Numerical algorithm for minimax polynomial approximation of functions with a given weight <i>A. S. Berdnikov, S. V. Masyukevich</i>	74
Dynamic polarization-optical analysis of ordered functional materials and nanosystems (overview) <i>Ya. A. Fofanov, I. M. Sokolov, V. V. Manoilov, A. S. Kuraptsev</i>	92
Justification of the possibility of using the hydrodynamic model of a viscous incompressible fluid in software simulation of the radiated field of the electroosmotic electroacoustic radiator <i>B. P. Sharfarets</i>	117

NUMBER 4**DEVELOPMENT OF MEASURING DEVICES AND SYSTEMS**

- Microvalves in microfluidic devices. Part 1. Active microvalves
A. N. Zubik, G. E. Rudnitskaya, A. A. Evstrapov 3
- Study of the electroacoustic characteristics of the compact low-frequency hydroacoustic transducer (3D LFHE) of a longitudinal-bending type and a complex shape
A. K. Britenkov, M. S. Norkin, A. V. Stulenkov, R. V. Travin 28
- Method for measuring the electric field strength with determining the error of the measurement result and the distance to the field source
S. V. Biryukov 40

PHYSICS OF INSTRUMENT MAKING

- Dynamics of charged particles in two-dimensional magnetic prisms with account of the influence of fringe fields
I. F. Spivak-Lavrov, O. A. Baysanov, S. U. Sharipov, B. O. Sarsembaev 48
- Research of the impedance of a broadband acoustic piezoelectric transducer composed of different-frequency emitters (brief message)
D. A. Davydov, V. Yu. Neruk, P. P. Pivnev 56
- Methodology for the study of internal friction in the mode of free-damped oscillatory process (part 1)
V. A. Lomovskoy, Y. V. Chugunov, S. A. Shatokhina 60

SYSTEM ANALYSIS OF MEASURING DEVICES AND METHODS

- Two methods for measuring hf band noise
A. O. Schiriy 72
- Evaluation of the effectiveness of machine learning classifiers for gas type and concentration recognition
T. V. Osipova, A. M. Baranov, I. I. Ivanov 84
- Investigation of the developed spectrophotometric sensor for colorimetric devices using optoelectronic RGB components
E. E. Maiorov, A. V. Arefiev, R. B. Guliyev, V. P. Pushkina, G. A. Tsygankova 91
- Possibilities of mass spectrometric quality control of dairy products on the example of industrial yoghurts with various additives
V. S. Sibirtsev, A. G. Kuzmin, Yu. A. Titov, M. Yu. Zanevskaya, A. Yu. Zaitseva 101

INFORMATICS, COMPUTER TECHNICS AND CONTROL

- Building of a generalized quality assessment criterion cryptographic code sequences used in secure wireless communication systems
A. A. Gavrishev, D. L. Osipov 111
